# ASSERTIONS IN JAVASCRIPT

- ▶ An **assertion** in JavaScript:
  - ▶ Checks one or more conditions
  - ▶ Depending on the result of the check, can *throw an exception*
- ▶ This is *not* an assertion:
  - ▶ 

```
if (someDeclaredVariable) {  
    return true;  
} else {  
    return false;  
}
```
