

WHAT IS MOCHA?

- ▶ Mocha is a *testing framework* for JavaScript
- ▶ Mocha allows developers to focus on application-specific details instead of boilerplate
- ▶ You “fill in the blanks” with your tests
- ▶ Mocha’s purpose is to *make writing tests easier*

EXERCISE: INSTALL MOCHA

- ▶ **Navigate to 04-introducing-mocha/bargs:**
 - ▶ `cd ../../04-introducing-mocha/bargs`
- ▶ **Install Mocha as a "dev" dependency:**
 - ▶ `npm install mocha --dev`
